It takes a *Community*

On behalf of the Murrumbateman Community Association, I would like to extend to you a very warm welcome to the 2026 Murrumbateman Field Days. The MCA is a voluntary, not-for profit organisation, serving our community for 90 years. It is an umbrella organisation for the Murrumbateman Village Markets, Men's Shed, Murrumbateman History Group, Christmas Carols and Twilight Markets.

We work with our community to ensure local voices are heard and that governments invest in future planning to enhance the quality of our rural lifestyle.

The Field Days are an annual event, running since 1979, and through them we many local groups, will benefit financially. This year over 300 exhibitors will take part. In the past the Field Days have returned \$1.1 million to local groups, providing funds for their work.

I would especially like to thank the 100+ volunteers that support the Field Days. Their invaluable contribution in time and effort make an event of this scale possible.

The Field Days have a substantial impact on our economy, generating \$8 million in economic activity, providing a welcome boost to local businesses, across the Yass Valley.

By attending the Field Days, you are supporting rural businesses, community groups, and helping us create a vibrant and sustainable region.

Whilst you are here, visit the MCA stall and find out about other attractions, including cool climate wineries, artisan foods and treats, markets and outdoor adventures.

The Field Days are a true demonstration of community spirit, an event built and run by the people for the people.

Thank you for being a part of the Murrumbateman Field Days. I hope you enjoy your visit and leave with a deeper connection to our community, people and region.

HumeLink East project update

HumeLink is one of NSW's largest energy infrastructure projects, with about 365 kilometres of new 500kV transmission line which will connect Wagga Wagga, Bannaby and Maragle. The eastern portion between the existing Bannaby substation and Wondalga is being delivered by Acciona and Genus in a joint venture as AGJV HumeLink East.

Construction works across the HumeLink East alignment are progressing with teams moving from earthworks and track construction, to tower assembly and active line stringing.

In the past 12 months, we have built more than 220 kilometres of access tracks, erected more than 140 towers, commenced helicopter stringing operations and awarded \$2 million in funding to local community initiatives. Thank you to our local communities for your understanding and support as we build this nation-critical infrastructure project.

We are a proud sponsor of the Murrumbateman Field Days.
